George R. R. Martin's A Song of Ice and Fire series has become, in many ways, the gold standard for modern epic fantasy. Martin's "dubbed the "American Tolkien" by Time magazine" has created a world that is as rich and vital as any piece of historical fiction, set in an age of knights and chivalry and filled with a plethora of fascinating, multidimensional characters that you love, hate to love, or love to hate as they struggle for control of a divided kingdom. It is this very vitality that has led it to be adapted as the HBO miniseries Game of Thrones. This bundle includes the following novels: A GAME OF THRONES A CLASH OF KINGS A STORM OF SWORDS A FEAST FOR CROWS
